Professional Experience

MEEM Digital Transformation Technology — Lead Frontend Developer

June 2024 – Present

- Led frontend development for projects including Tajseer, Talk4Impact, and Hammam Al-Haram.
- Built dynamic dashboards, interactive forms, and responsive UI using Laravel Blade,

JavaScript, ApexCharts, Bootstrap, and SCSS.

- Collaborated with backend developers to integrate APIs and optimize system performance.
- Applied front-end SEO best practices and code-level optimizations.

North Studios — Lead Full Stack Developer&WordPress Developer

May 2024 – August 2025

- Managed full-stack development and WordPress projects, including North Studios official website, NorthAI, and Engineering Extracts System.
- Built responsive WordPress sites using Elementor, WPBakery, and WooCommerce for e-commerce and corporate clients.
- Developed AI-powered tools like NorthAI integrating multiple APIs (OpenAI, LimeWire, Mailgun) for dynamic content generation and lead collection.
- Implemented complex systems such as Engineering Extracts System with hierarchical BoQ, CRUD operations, and dynamic dashboards using Laravel + Livewire.

Projects

Tajseer Platform — MEEM

2024

Tech Stack: Laravel (Blade), MySQL, JavaScript, ApexCharts, Bootstrap

Developed the full frontend for Tajseer, a program under the Delni Platform (Saudi Arabia), with advanced dashboards, interactive charts, and responsive UI.

Talk4Impact Platform — MEEM

2024

Tech Stack: Laravel (Blade), MySQL, JavaScript, ApexCharts, Bootstrap

Developed the complete frontend, including multiple dashboards and reporting tools for social impact initiatives.

Hammam Al-Haram Platform — MEEM

2024

Tech Stack: Laravel (Blade), MySQL, JavaScript, ApexCharts, Bootstrap

Built full frontend with interactive dashboards and tables for managing internal services related to the Holy Mosque.

North Studios Official Website — WordPress Project

2024 – 2025

Tech Stack: WordPress, PHP, MySQL, JavaScript, Elementor, SCSS

Developed the main website and multiple landing pages for a construction and interior design company.

NorthAI — AI Interior Design Generator — North Studios

2024

Tech Stack: Node.js, Express.js, JavaScript, API Integration (OpenAI, LimeWire, Mailgun), HTML, CSS, Bootstrap

Designed and developed the AI-powered tool to generate interior design images from user inputs, integrated with multiple APIs and automated lead collection.

Engineering Extracts System — North Studios

2025

Tech Stack: Laravel, Livewire, MySQL, Bootstrap, SCSS, JavaScript

Developed a complete system for managing engineering extracts, with hierarchical BoQ Tree View, CRUD operations, and dynamic dashboards. Implemented One Extract per Item logic and printable tables.

Supply Cloud — Freelance

2025

Tech Stack: WordPress, WPBakery, PHP, MySQL, JavaScript, CSS

Built a responsive cloud supply business website with custom layouts and optimized UX.

Lifiori.com — Freelance

2024–2025

Tech Stack: WordPress, Elementor, WooCommerce, PHP, MySQL, JavaScript, CSS

Developed e-commerce platform with WooCommerce integration, responsive layouts, and SEO optimization.

GES Portfolio&Company Intro — Media&IT Solutions (Freelance)

2024

Tech Stack: Laravel (Blade), MySQL, JavaScript, Mailgun, HTML, CSS, Bootstrap

Developed a portfolio and company intro website with interactive forms sending data via Mailgun.

FRCPass — Educational Training&Assessment System

2024–2025

Tech Stack: Blazor Server, ABP Framework, Entity Framework Core, C#, JavaScript

Developed frontend using Blazor Server and backend with ABP Framework&EF Core. Managed training courses, assessments, and progress tracking with interactive UI.

RahalDesigns.com — Full Stack Website

2025

Tech Stack: Laravel (Blade), MySQL, JavaScript, Bootstrap, Mailer

Built full-stack website with admin panel, auth, validation, CRUD, and forms sent via Laravel Mailer.

Education

Bachelor's Degree in Computer Science

MTI University, Egypt

Graduation Year: 2024
